

## **The Majestic Roadrunners**

### **The Data Science Seminar**

#### **Checkpoint3: Interactive Visualization**

*To visualize if there has been any decrease or increase ,over the years on the number of TRRs coming from a district meanwhile comparing if it is affecting nearby districts as well.*

1. What is the number of TRRs coming from different districts? Has the number of TRR received over the years from these districts have increased or decreased?

Link: <https://observablehq.com/@3d648a34c9857641/q1>

2. To observe if the districts from where the TRR percentage is higher is occupied predominantly by a particular race?
